Cycling in the County

Dún Laoghaire-Rathdown County Council is committed to improving facilities for cyclists.

In the 2012, the Council developed a County Cycle Network following an assessment of all existing routes in the County. The main objectives of this assessment were:

- > To identify and implement safe cycling routes to key destinations in the County.
- > To retrofit areas towards creating sustainable neighbourhoods so that cycling, together with walking, can be the best option for local trips.
- > To help prioritise funding to deliver cost effective cycle-friendly improvements to the cycle network in the County.

The aim of the improved cycle network was to create conditions to encourage and facilitate increased levels of cycling in the County by providing direct routes with a high level of service. This leaflet provides details of one route being enhanced as part of the County Cycle Network. Details of all routes can be found on www.dlrcoco.ie
